TRAVEL
OUTSIDE
THE **OBVIOUS**

Launched in 2006, Anatomie is a sophisticated contemporary travel wear brand with a playful sensibility, which epitomizes the personality and style of its founders, Kate and Shawn Boyer. The brand was born from their personal quest to create a flattering pair of pants, and has since grown into a full women's ready to wear collection, including outerwear, tops, dresses, and the perfect pants that started it all.

Today, the easy care, high performance designs are a favorite in exclusive hotel, county clubs, resorts, spas and other travel destinations. Combining innovative features, high style and everyday practicality, Anatomie represents functional fashion for the sophisticated traveler who appreciates quality and comfort.

Anatomies' guiding philosophy has always been functional fashion. The foundation of their collection is the utilization of high-performance "technical"

fabrics that are durable enough to meet the demands of extreme sports yet luxurious enough to go from play-to-work and work-to-evening. Anatomie translates these fabrics into sophisticated sexy silhouettes that are durable and ultra-modern.

Contemporary travel wear is, essentially, stylish and comfortable clothing that woman can wear to any place at any time. Whereas many designer pieces prioritize form over function, Anatomie ensures the perfect balance of both by blending high performance, ultra-modern technical fabrics with classic designs and form-flattering cuts. The result is ultra comfortable clothing that looks great.

Anatomie is the most loved luxury travel brand in the world. Combining high functionality and performance fabrics with sleek design, we create exceptional everyday wear for the adventurous jet-setter.
