### LANCASTER PARIS

Kasandra Carlson, VP of Sales and Marketing, BOOTH: 3520

**What are the brand's plans to expand in the U.S.?**

We have been experiencing steady growth in all of our markets since the launch of the brand in North America with specialty boutiques and chain stores. We are expanding into some online retailers and high-end hotel boutiques. We are currently in developing discussions with a few different department stores and expect to have something solidified shortly. We are looking to showcase our shop-in-shop concept and at the same time partner with the very best and most suitable retailers.

**What sets the brand's products apart from other leather and handbag designers'?**

Lancaster Paris is "true affordable luxury." Embracing innovation, constant change, fashion consciousness between classically chic and major trends, Lancaster Paris has carved a niche for itself as one of the leading names in the French leather goods and accessible luxury markets. With our passion for quality and creativity, each handbag meets the needs of forward-thinking fashionistas and practicality enthusiasts alike.

### ANATOMIE

A retreat to Lake Como with our family, and our partner we collaborate with there, IC Bellagio.

**What's next for your brand?**

Conquering the world, starting with France, Canada, New Zealand, and Australia, where we already have distributors in place.

**If you could see one trend come back, it would be...**

Old, original Prada Sport.

**Who are your style icons?**

Brunello Cucinelli, Prada, and Armani.

**What do you listen to while you design?**

Anything, from jazz to rock.

### ZAC ZAC POSEN

Zac Posen, Designer, BOOTH: 3020

**What is the story behind your brand?**

We introduced ZAC Zac Posen in 2013, a collection of everyday pieces, marked by attention to detail, fit, and innovation. The collection offers wardrobe staples that transition seamlessly from day to evening, the perfect complement to the dramatic glamour of the Zac Posen collection.

**What first inspired you to be a designer?**

My father's art.

**What inspired your Spring 2016 collection?**

This season culls inspiration from my numerous trips to the City of Angels: palm leaves, water, and animal prints add a playful touch of color. The relaxed Los Angeles mood is depicted by a meticulous play on texture that's present within all categories, from the mix of suede and neoprene in the outerwear to leather, ton-sur-ton floral appliqué on the handbags to fuzzy knits and architectural tops in cotton and mesh.

**What's next for your brand?**

We're excited to expand existing categories and tap into new ones soon.

**Who was your mentor?**

Rene Ricard.

**What is your favorite place in NYC to have a quiet moment?**

My studio on a Sunday morning.

**What is the last thing you Googled?**

ZAC Zac Posen.
